Hello Jennifer:

I was in Pueblo and just got back. Eliminate number 3. There is no link to a Google site. I set up a OneDrive location to share documents with CAG members. The CAG administrator sent me a list of CAG members and she is not in it.

Jesse

Hi Jesse,
Want to make sure you saw my email Monday? Maybe you are in Pueblo? I'd like to respond to Joan today if possible.

Jesse, here is a draft response to Joan. Can you let me know if this is correct? Is it possible to include the year in which we expect proposed plans for the other OUs? Please send me the login info for the google site. This is public info whether Joan is officially a CAG member or not, correct? Also anything you want to say about the CIP and her concerns about draft CIPs?

Thanks.
Jennifer

Joan,
Thank you for your email. Below are attempts to respond to your questions. I'm sure Jennifer Chergo can answer any additional questions when she returns next week.

- 1) EPA does not have a proposed plan for OU2 or OU3 of the VB-I-70 Superfund Site. This is because EPA is still conducting a Remedial Investigation at OU2 and we are close to

beginning a Feasibility Study for OU3. EPA will share and accept formal public comment on proposed plans in the future once these studies are complete.

- 2) I am including a link to guidance for deletion from the National Priorities List. Here you will find information about the Administrative Record: <https://www.epa.gov/superfund/superfund-npl-deletion-guidance-and-policy>
- 3) Here is a link to the google site: The password is _____
- 4) Here is a link to EPA guidance for Community Involvement Plans: <https://semspub.epa.gov/work/11/174739.pdf>

Jennifer,

Thank you for your follow-up telephone response regarding my EPA Region 8 inquiry since Jennifer Chergo EPA Community Involvement Coordinator for the Vasquez Blvd Superfund site was unavailable. The following is a brief :) list of requests:

1. I look forward to a resolution to my request for the VB/I-70 OU1 EPA "Proposed Plan" 2002 (1st and 2nd) and the "NEW". 2003 Proposed Plan. I received a factsheet for the NEW Proposed Plan dated 2003. Tone is short due to the EPA delist comments deadline April 8th.
2. Please provide an EPA "confirmation" for what is "required" for public review for a "National Superfund Administrative Record" before s deadline. Also, only 1 library was provided information. The

EPA FOI website review is shockingly confusing, documents are in NO type of order, and again I tried to locate several important OU1 reports.

3. Jesse Avilés has provided documents on a google site that has not been made available to the general public and only to the CAG which required a password. Please provide a list.

4. Please provide information regarding EPA's position regarding Community Involvement Plan (CIP) interviews for National Superfund sites. The VB/I-70 OU1 CIP was issued in 2000 as a "draft" and there has never been a new Final "specific" to OU1. A CIP was generated for all OU's in 2005 (?), 2010 (OU2), and 2016 (OU2) for VB/I-70 without specific comments re public comment for OU1. Are there any CIP EPA requirements?

As I mentioned in our conversation I appreciated your return phone call but was concerned that the head of Community Relations did not respond. There are several issues regarding Access to the correct EPA contacts, and leaving "message only" on the EPA Region 8 message line for a return call. Thank you for the .org chart you sent; it was helpful.

Also, the fact that you responded for Jennifer Chergo and not the head of Community Relations and Public Involvement did make me feel very uncomfortable. You are in the same position as Jennifer and I did not want to make you feel uncomfortable. Again, thank you for the follow-up to my questions before the April 8th OU1 delist.

I look forward to your response,

Joan Seeman
